+ skills

WEB DEVELOPMENT: Javascript, React, Node, Express, Jest, Python, HTML/CSS/SASS/LESS, Git/Github, SQL/NoSQL, Heroku, Adobe Xd

+ projects

Griipe May 2019 to June 2019

Goal of this project: Facilitate the ability for retail customers to send complaints privately and/or publicly

- This was a team project with 3 other people
- Project was built in a month
- Front end was built on React
- Back end was built with Node & Express with Firebase handling our OAuth
- We used the Deepgram api to transcribe messages recorded within the app, Google Places api to grab locations & Twitter api to send out tweets

International Rural School Report Feb. 2019 to Feb. 2019

This web app was created to help third world countries get access to school supplies. I was in charge of designing and coding the Landing page

- This was a week long project i made with a team of five
- I used HTML/LESS/JavaScript
- Fully responsive design
